Russian Federation

Geneva, October 8, 2020

Our ref.: 806/1335625501
Your ref.:

International Registration No. 1 554 612 (LNDC)

In accordance with Rule 14(1) of the Regulations, please find herewith the certificate for the above-mentioned international registration. This certificate is issued only in the language in which the international application was filed.

This international registration will be published in the *WIPO Gazette of International Marks* No.: 39/2020.

**International Bureau of the
World Intellectual
Property Organization**

**MADRID AGREEMENT AND PROTOCOL CONCERNING
THE INTERNATIONAL REGISTRATION OF MARKS**

WARNING

The mark to which the attached international registration certificate relates will be published in the *WIPO Gazette of International Marks* by the International Bureau of WIPO. It is recalled that no fee is payable for such publication over and above those already paid for the international registration itself.

We warn the owners of international registrations against the activities of certain private bodies which, for a charge, offer to publish their marks, doing so in a manner and in terms that suggest that such publication is a necessary part of the procedure provided for in the Madrid Agreement and Protocol. It is however entirely unnecessary, and without any legal effect for the purposes of these two international treaties.

CERTIFICATE OF REGISTRATION

The International Bureau of the World Intellectual Property Organization (WIPO) certifies that the indications appearing in the present certificate conform to the recording made in the International Register of Marks maintained under the Madrid Agreement and Protocol.

Reproduction of the mark

Registration number **1 554 612**

Registration date **January 14, 2020**

Date next payment due **January 14, 2030**

Name and address of holder Laboratory NonDestructive Control Co., Limited (LNDC Co. LTD)
ul. Revolyucii, 12, of. 41, Perm, RU-614007 Permskij Kraj (Russian Federation)

Legal nature of the holder (legal entity) and place of organization limited liability company, RU

Address for correspondence Laboratory NonDestructive Control Co., Limited (LNDC Co. LTD),
"IT-Lex" LLC, P.O. box 309, ul. Ilyicha, 8, Novosibirsk, RU-630090
Novosibirskaya oblast (Russian Federation)

Classification of figurative elements 1.15; 26.4; 26.5; 27.5; 28.5

Transliteration of the mark

LNK

Certified description of the mark The claimed designation is combined; The figurative element is on the left of the designation; It consists of a stylized image of round water drops forming a shape of a rhombus; The drops are arranged in three rows one above the other, three drops in a row, diagonally up from left to right, as follows: the upper and the lower row each have a small drop, a medium-sized drop and a large drop, the middle row has a large drop, a medium-sized drop and a small drop; In each row, a large drop and a medium-sized drop are smoothly bridged forming a dumbbell shape; There are shadows on all the drops; The element in Cyrillic that transliterates into Latin as "LNK" and the "LNDC" letter element are located one above the other and separated from each other by a horizontal line; "LNK" and "LNDC" are abbreviations formed by the first letters of the original part of the applicant's full corporate name in the Russian language (Laboratoriya Nerazrushayushhego Kontrolya) and its translation into the English language (Laboratory NonDestructive Control), respectively; Both abbreviations are made in capital letters in a stylized font.

Disclaimer ЛHK, LNDC.

List of goods and services
NCL(11-2020)

- 7 3D printers; high pressure washers; aerators [machines]; expansion tanks [parts of machines]; drums [parts of machines]; reels, mechanical, for flexible hoses; reels [parts of machines]; valves [parts of machines]; hydraulic controls for machines, motors and engines; drilling heads [parts of machines]; mud catchers and collectors [machines]; de-aerators for feedwater; pump diaphragms; chisels for machines; hand-held tools, other than hand-operated; control cables for machines, engines or motors; pressure valves [parts of machines]; clack valves [parts of machines]; pressure reducers [parts of machines]; compressors [machines]; diggers [machines]; thermic lances [machines]; handling machines, automatic [manipulators]; blowing machines; mineworking machines; blowing machines for the compression, exhaustion and transport of gases; earth moving machines; oil refining machines; drainage machines; sorting machines for industry; filtering machines; electromechanical machines for chemical industry; superchargers; pumps [machines]; pumps [parts of machines, engines or motors]; vacuum pumps [machines]; pneumatic pumps; centrifugal pumps; packers for wells [parts of oil-well pumping machines]; chucks [parts of machines]; drill chucks [parts of machines]; drilling machines; pneumatic controls for machines, motors and engines; pistons [parts of machines or engines]; presses [machines for industrial purposes]; samplers for wells [parts of machines]; regulators [parts of machines]; pressure regulators [parts of machines]; industrial robots; steam/oil separators; machine tools; central vacuum cleaning installations; control mechanisms for machines, engines or motors; filter presses; filters being parts of machines or engines; centrifuges [machines]; cartridges for filtering machines.
- 9 Accelerometers; anemometers; testing apparatus not for medical purposes; remote control apparatus; monitoring apparatus, other than for medical purposes; Global Positioning System [GPS] apparatus; distillation apparatus for scientific purposes; diffraction apparatus [microscopy]; air analysis apparatus; sound transmitting apparatus; electric apparatus for commutation; intercommunication apparatus; stills for laboratory experiments; projection apparatus; radiological apparatus for industrial purposes; telephone apparatus; facsimile machines; aerometers; barometers; computer memory devices; vacuum gauges; personal video recorders [PVRs]; video screens; viscosimeters; gas testing instruments; gasometers [measuring instruments]; heliographic apparatus; hygrometers; hydrometers; holograms; range finders; piezoelectric sensors; densimeters; floppy disks; sound recording discs; magnetic disks; optical discs; electronic numeric displays; electronic interactive whiteboards; electronic notice boards; bells [warning devices]; electric alarm bells; signal bells; audio interfaces; acoustic conduits; marine depth finders; probes for scientific purposes; buzzers; measures; pressure measuring apparatus; water level, temperature and conductivity measuring apparatus; pressure indicators; temperature indicators; measuring instruments; surveying instruments; azimuth instruments; interfaces for computers; satellite finder meters; coaxial cables; fiber optic cables; electric cables; thermal imaging cameras; electronic pens [visual display units]; holders for electric coils; electric coils; solenoid valves [electromagnetic switches]; thin client computers; electronic book readers; electronic agendas; mouse pads; commutators; audio-video compact discs; compact discs [read-only memory]; computers; laptop computers; tablet computers; notebook computers; wearable

computers; lasers, not for medical purposes; surveying chains; manometers; materials for electricity mains [wires, cables]; material testing instruments and machines; diaphragms for scientific apparatus; digital weather stations; rules [measuring instruments]; micrometers; microprocessors; microscopes; modems; monitors [computer hardware]; monitors [computer programs]; temperature indicator labels, not for medical purposes; surveyors' levels; sound recording carriers; magnetic data media; optical data media; downloadable hydrogeology and hydrometeorology software for computers or other electronic devices; downloadable underground and surface waters monitoring and control software for computers or other electronic devices; downloadable wells monitoring and control software for computers or other electronic devices; recorded computer software; computer hardware; clothing especially made for laboratories; transmitters [telecommunication]; telephone transmitters; transmitters of electronic signals; pyrometers; computer software platforms, recorded or downloadable; wafers for integrated circuits; personal digital assistants [PDAs]; telerupters; diagnostic apparatus, not for medical purposes; distance recording apparatus; distance measuring apparatus; speed measuring apparatus [photography]; teaching apparatus; surveying apparatus and instruments; navigational instruments; optical apparatus and instruments; apparatus and instruments for physics; chemistry apparatus and instruments; measuring apparatus; electric measuring devices; meteorological instruments; observation instruments; satellite navigational apparatus; electric regulating apparatus; precision measuring apparatus; audio- and video-receivers; computer software applications, downloadable; samplers, not for medical purposes; electric wires; recorded computer programs; downloadable hydrogeology and hydrometeorology programs for computers or other electronic devices; downloadable underground and surface waters monitoring and control programs for computers or other electronic devices; downloadable wells monitoring and control programs for computers or other electronic devices; downloadable computer programs; recorded computer operating programs; computer screen saver software, recorded or downloadable; sampling profilers; processors [central processing units]; rods for water diviners; downloadable electronic publications; control panels [electricity]; piezometers; radar apparatus; transmitting sets [telecommunication]; radios; flowmeters; data loggers; water level and temperature recorders; reducers [electricity]; X-ray photographs, other than for medical purposes; laboratory robots; teaching robots; telepresence robots; hydrogeological roulettes [hydrogeological monitoring and measuring apparatus]; signals, luminous or mechanical; smart cards [integrated circuit cards]; sonars; audiovisual teaching apparatus; spherometers; integrated circuits; theodolites; interactive touch screen terminals; thermo-hygrometers; thermometers, not for medical purposes; transistors [electronic]; transponders; Pitot tubes; gauges; quantity indicators; water level indicators; inclinometers; level gages, including well level gages; levels [instruments for determining the horizontal]; mercury levels; spirit levels; electric installations for the remote control of industrial operations; video recorders; data processing apparatus; dosage dispensers; sounding apparatus and machines; couplers [data processing equipment]; computer peripheral devices; anti-interference devices [electricity]; acoustic couplers; alarms; whistle alarms; adding machines; readers [data processing equipment]; downloadable image files; chromatography apparatus for laboratory use; sleeves for laptops; covers for personal digital

- assistants [PDAs]; covers for tablet computers; covers for smartphones; chips [integrated circuits]; meteorological balloons; downloadable graphics for mobile phones; emitters for wells [transmitting and emission apparatus].
- 37 Drilling of deep oil or gas wells; drilling of wells; repair information; construction information; installation of utilities in construction sites; building construction supervision; rental of drainage pumps; laying of cable; plumbing; underwater repair; quarrying services; pump repair; hydraulic fracturing services; services of electricians; telephone installation and repair; installation, maintenance and repair of computer hardware; machinery installation, maintenance and repair; office machines and equipment installation, maintenance and repair; interference suppression in electrical apparatus.
- 42 Water analysis; computer system analysis; chemical analysis; energy auditing; recovery of computer data; industrial design; computer virus protection services; oil-field surveys; geological surveys; engineering; installation of computer software; meteorological information; clinical trials; material testing; bacteriological research; biological research; geological research; research in the field of environmental protection; research in the field of telecommunications technology; research in the field of physics; chemical research; research and development of new products for others; scientific and technological research relating to patent mapping; scientific and technological research in the field of natural disasters; scientific research; analysis for oil-field exploitation; underwater exploration; technological research; calibration [measuring]; computer security consultancy; information technology [IT] consultancy; consultancy in the design and development of computer hardware; Internet security consultancy; computer software consultancy; data security consultancy; technological consultancy; oil-well testing; underground and surface water testing; well testing; quality control; updating of computer software; monitoring of computer systems to detect breakdowns; monitoring of computer systems for detecting unauthorized access or data breach; monitoring of computer systems by remote access; software as a service [SaaS]; hydrogeology and hydrometeorology software as a service [SaaS]; underground and surface water monitoring and control software as a service [SaaS]; wells monitoring and control software as a service [SaaS]; maintenance of computer software; conversion of data or documents from physical to electronic media; providing information on computer technology and programming via a website; provision of scientific information, advice and consultancy in relation to carbon offsetting; providing search engines for the Internet; platform as a service [PaaS]; conversion of computer programs and data, other than physical conversion; conducting technical project studies; computer system design; rental of web servers; computer rental; rental of computer software; geological prospecting; oil prospecting; hosting computer sites [web sites]; server hosting; development of computer platforms; computer software design; consultancy in the field of energy-saving; creating and designing website-based indexes of information for others [information technology services]; creating and maintaining web sites for others; computer programming; wells monitoring and control computer programming; technical writing; duplication of computer programs; cloud computing; chemistry services; outsource service providers in the field of information technology; off-site data backup; computer technology consultancy; telecommunications technology consultancy; scientific laboratory services; weather forecasting; cartography services; exploration services in the field of the oil,

gas and mining industries; data encryption services; electronic data storage; surveying.
